

ATS Resume Analysis Report

Built by Pratyush Kashyap | Powered by Groq AI (Llama 3.3 70B)

Resume	Pushpak_PrNAV_-_Software_Testing_Resume_(1)_ (1).docx
Domain	Software Testing/QA
ATS Score	78.0% (Good)
JD Match	60.0%
Matched Skills	3
Missing Skills	2

Matched Skills

- ✓ jira
- ✓ manual testing
- ✓ automation

Missing Skills

- ✗ postman
- ✗ sql

Improvement Suggestions

- Include specific examples of using Jira, Postman, and SQL in previous projects or experiences.
- Highlight any automation experience, even if it's basic, to match the job requirement.
- Emphasize attention to detail by describing a situation where it was crucial in a testing project.
- Quantify the results of testing efforts, such as 'identified and reported X number of bugs' to demonstrate analytical thinking.

Skill Roadmap

postman — High Priority (via Udemy)

Course: Postman API Testing Masterclass

Link: <https://www.udemy.com/course/postman-api-testing/>

Certification: Postman API Testing Certification

sql — High Priority (via DataCamp)

Course: SQL Masterclass: SQL for Data Analysis and Data Science

Link: <https://www.datacamp.com/courses/sql-masterclass>

Certification: DataCamp SQL Certification
